RESERVATION OF RIGHTS

Temporary measures being taken to allow the irrigation of the subject parcel are not to be construed as an admission that the original transfer is invalid under federal or state law. The applicant reserves the right to continue to assert that the original transfer is valid and that the applicant is entitled to use the original water right in the manner requested. In no way are these temporary measures to be construed as a withdrawal of the prior transfer, or as an abandonment or forfeiture of the original water right."

APPROVAL

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the place of use of the waters of the Truckee and Carson Rivers as set forth under the Newlands Reclamation Project rights in the Truckee and Carson River final decrees is issued subject to the terms and conditions imposed in said decrees and with the understanding that no other rights on the source will be affected by the change proposed herein.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on November 15, 1995 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

This permit does not authorize more than the decreed duty to be placed on the proposed place of use.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 29.75 acre-feet cubic feet per second as decreed

Work must be prosecuted with reasonable diligence and be completed on or before.....

Proof of completion of work shall be filed before.....
